INDEX

Bernoulli's equation 42, 68
Besant-Rayleigh problem 77
Bessel equation 249
Bessel function 125, 251, 316
Blasius problem 35
boundary layer equation 144, 149
Boussinesq formula 123
Boussinesq problem 117
Burger's equation 36

Cartesian components 91
Cauchy-Lagrange equation 63, 238
Cauchy-Riemann conditions 47, 60
complex potential 48
continuity equation 37, 98
coordinate line 6
coordinates
  Cartesian system 12
  curvilinear 5
    cylindrical 6
    elliptical cylinder 9
    oblate ellipsoid of revolution 9
    parabolic cylinder 6
    special elliptical 9
    spherical elliptical 9
  revolution system 13
Couette flow 99

Dalambert-Euler paradox 58, 98
damped rotation of a body in an air flow problem 165
derivative covariant 10
diffusion
  vortex layer 34
  vortex line 36
direct transformation 3

eigenfunction function 103
Euler number 106
Euler's equation 14, 37
Euller's beta function 79
Euller's gamma function 31, 79

flow
  cylindrical Poiseuille 191
  plane 45
  plane Poiseuille 191
  nonstationary viscous incompressible 116

radial in a plane diffuser 193
rotating Couette 190

Governing equation 134

Hamiltonian operator 11, 97
Helmholtz equation 14
hydrostatics equation 38

impulse Boussinesq problem 196
infinite cylinder 56
inverse transformation 3
invincid fluids
constant density 77
variable density 79

Kronecker delta 58

Laplace transform 81, 277
Laplace variable 117
Laplacian in spherical coordinates operator 294
Laplacian operator 97
Laplase's equation 14, 68, 238

Macdonald function 131
many-dimensional space 1
mass conservation law 44
momentum conservation law 45
momentum of dipole 50

Navier-Stokes equation 14

oscillation equation 18
Oseen method 126

parabola equation 233
Poisson's equation 15
polynomias Legendre 293
Prandtl equation 134
processes
linear 24
nonlinear 29

Ramsey problem 95
Reynolds number 106
Reynols problem 113

solution self-similar 22
stationary fluid motion 98
Stocke's paradox 274
Stokes formula 36
Stokes method 105
Stokes problem 106
Strouhal number 106
Sturm-Liouville problem 103
Symbol Christoffel 10

Tensor 4
analysis 1
components
contravariant 2
covariant 2
theorem
π 17
residues 52
thermal conductivity equation 15

value of circulation 51
viscous forces 98
vortex 51
vortex layer problem 194

wave
impurity 28
gravitational 71
capillary 75
ripples 75
running 23
Weierstrass elliptical function 271
