

Index

- Total acceleration in cylindrical coordinates 53
Total acceleration in spherical coordinates 53
Total acceleration 50
Adherence 414
Adhesion 519
Adiabatic 87
Hugoniot adiabatic 136
Poisson isentropic adiabatic 103, 106, 136
Adiabatic state 104
Advection 642, 644
Aerostatics 79
Generation of Reynolds analogies 744
Reynolds analogy 741
Viscous analogy 479
Thermal anemometry 645
Actual angle of attack 347
Effective angle of attack 347, 854
Geometric angle of attack 347
Induced angle 347, 348
Local angle of attack 246
Mach angle 373
Angle of attack 194
Angle of attack of profile 194
Angle of flow skewness 347, 348
Angle of noncirculatory flow past a profile 199
Angle of perturbation 373
Angle of stagger of a profile 223
Practical angle of attack 199
Setting angle of a profile 223
Theoretical angle of attack 199
Anisotropy 406
Shock-free approach of fluid 222
Aspect ratio of a wing 351
Roughness asperity 626
Local asperity 707
Ensemble averaging 635
Averaging in time weighted in density 873
Time averaging 634
Principal axis of rates of strain 44
Principal axis of symmetric tensor 17
Back pressure 123
Barotropic state 81, 91
Basis 2
Hydrostatic bearing 501
Liquid body xvii
Solid body xvii
Voigt "body" 409
Turbulent bubble 631, 632
Bubbling 111
Center of thrust 216
Centipoise 403
Centistokes 403
Characteristic 156, 297
Characteristic of wave equation 243
Flow choking 113, 122
Chord of profile 194
Basic circle 200
Circulation of a vector 31
Theoretical circulation of velocity 199
Coefficient of turbulent viscosity 653, 658
Coefficient of volumetric viscosity 778
Clauser coefficient 759, 761
Dynamic coefficient of lift force 603
Dynamic coefficient 401, 779
Kinematic coefficient 401
Lame coefficient 22
Mass conductivity coefficient 468
Accommodation coefficient 797
Coefficient of added mass 362, 364
Coefficient of correlation 635
Coefficient of filtration 480

- Coefficient of induced drag 351, 379
 Coefficient of intermittency 615, 617, 628, 762
 Coefficient of lifting force 214, 351
 Coefficient of mass diffusion 850
 Coefficient of medium porosity 481
 Coefficient of spatial correlation 646
 Coefficient of thermodiffusion 850
 Coefficient of total pressure in a supersonic diffuser 150, 151
 Coefficient of turbulent diffusion 658
 Coefficient of turbulent friction 659, 670, 671
 Coefficient of turbulent heat transfer 657
 Coefficient of turbulent mixing 653
 Coefficient of turbulent thermal conductivity 658
 Coefficient of turbulent transfer 659, 671
 Coefficient of turbulent transfer of concentration 657
 Coefficient of turbulent transfer of momentum 657
 Coefficient of turbulent transfer of vorticity 679
 Coefficient of two-point space-time correlation 635
 Resistance coefficient of a tube 130, 431, 435, 439, 442, 443
 Second coefficient of viscosity 778
 Similarity coefficient 416
 Slip coefficient 797
 Thermal conductivity coefficient 468
 Thermal diffusivity coefficient 468
 Velocity coefficient 113
 Wave resistance coefficient 247
 Cold plasma 852
 Concentration 845
 Impermeability condition 90
 Necessary sufficient conditions 419
 Sufficient similarity conditions 419, 788
 Mach cone 244, 373
 Cone of disturbances 244, 373
 Chapman-Rubesin constant 807
 Sutherland constant 779
 Cyclic constants of a multiply-connected region 175
 Effective contour 721
 Liquid contour 38
 Convection 462, 512, 644
 Free laminar convection 609
 Convection of vorticity 513
 Universal coordinate 685
 Euler coordinates 35
 Lagrange coordinates 34
 Turbulent core 682
 Einstein's correction 410
 Correlation 635
 Double correlation 635, 641
 Drag crisis 629, 824
 Flow crisis 630, 824
 Galilean criterion 424
 Reynolds criterion 613
 Similarity criterion 420
 Curl of velocity vector 40
 Defect of kinetic energy 523
 Defect of total pressure 523
 Velocity defect 685
 Deformation of vector field 28, 29
 Degree of turbulence 625
 Density 55
 Density of distribution of volumetric force 58
 Density of the distribution of reactive forces 69
 Density of the distribution of the power of internal forces 72, 73
 Density of the distribution of the resultant vector of surface forces 68
 Convective derivative in Euler's notation 77
 Convective derivative in Lagrangian representation 77
 Convective derivative 51, 75
 Lagrangian derivative 51
 Local derivative 51, 75
 Ordinary derivative 51, 75
 Space derivative in curvilinear system 23
 Space derivative in cylindrical system 24
 Space derivative in rectilinear system 21
 Space derivative in spherical system 24, 25
 Space derivative 21
 Substantial derivative 51
 Total derivative 51
 Derivative with respect to prescribed direction 19, 20
 Reciprocal determinants 12
 Flow deviation 224
 Deviator 15
 Divergent nozzle 124
 Supersonic diffuser 147
 Diffusion xvii, 462, 469, 512
 Coefficient of diffusion 469, 850
 Diffusion of vorticity 463, 513
 Turbulent diffusion 653
 Dimensionality 426
 Dipole 187, 307, 318
 Characteristic direction 156, 297
 Direction of noncirculatory flow 199
 Shock-free direction of flow 223
 Dispersion of mechanical energy 462
 Dispersion of vorticity 463
 Dissipation 459
 Turbulent dissipation 642, 644
 Dissociation 842
 Continuous distribution of sources 308
 Elliptical distribution of circulation 352
 Friction drag 718, 719
 Frontal drag 718
 Induced drag 351, 718
 Drag of a wing 351
 Pressure drag 718, 719
 Profile drag 718, 719, 723

- Total drag** 718
Dyad 7
Conjugate dyad 26
Coordinate dyad 7
Differential dyad 26
- Coanda's effect** 522
Hartmann effect 451
Magnus effect 193
Thoms effect 622
Ejection 539
Busemann ellipse 301
Internal energy of a perfect gas 101
Internal energy of a fluctuating flow 642
Kinetic energy of irrotational motion 179
Kinetic energy 71
Potential energy 92
Total energy 73, 92
Enthalpy 777
Specific enthalpy 101
Stagnation enthalpy 105
Total enthalpy 105
Entrainment 665
Entropy 459
Cauchy equalities 61, 62
Bernoulli equation 97
Boussinesq equation 477, 653-656, 874
Chaplygin's equation 284
Chapman and Rubesin equation 779
Characteristic equation 16
Continuity equation in mechanics of variable mass 58
Continuity equation 44, 56
Crocce equation 523, 525
Energy balance equation 73, 102
Euler equation for the statics of the medium 80
Euler equation 90
Equation for a solid body moving in fluid 360
Falkner equation 700
Fourier equation 874
Gromeka-Lamb equation 91
Heat-balance equation 468
Helmholtz-Fridman equation 93
Hinze relaxation equation 773
Hugoniot equation 117, 136
Incompressibility equation 44, 57
Mass conservation equation in integral form 77
Mass conservation equation 56
Modified Clauser equation 761
Equation of momentum transfer 636, 638
Navier-Stokes equation in cylindrical coordinates 413
Navier-Stokes equation in spherical coordinates 414
Navier-Stokes equation of viscous gas dynamics 780
Navier-Stokes equation 412
- Equation of concentration** 846, 851
Equation of diffusion 851
Equation of dissipation rate transfer 643
Equation of dynamics in terms of stress 68
Equation of dynamics in terms of stress for variable mass 69
Equation of heat balance for viscous gas 780, 781
Equation of heat distribution in a turbulent flow 639
Equation of the dynamic possibility for motion 93
Equation of transfer of correlation of velocity fluctuations 642
Equation of turbulent diffusion 639
Poisson equation 309
Prandtl equation for an oblique shock 261
Prandtl equation 519, 659, 716
Prandtl-Mises equation 523
Rayleigh equation 232
Rheological equation 400
Saint-Venant and Wantzel equation 98
Universal boundary layer equation 563
Von Kármán-Tsien equation 291
Wave equation 109, 243
Equations of first-order moments 637
Reynolds equations of an averaged turbulent flow 637
Baroclinic equilibrium 87
Barotropic equilibrium state of a gas 81, 87
- Recovery factor** 802
Temperature factor 788
Far wake 531
Nonstationary field of a physical quantity 1
Nonstationary velocity field 36
Nonuniform field of a physical quantity 1
Field of a physical quantity 1
Scalar field of a physical quantity 1
Stationary field of a physical quantity 1
Stationary velocity field 35
Tensor field of a physical quantity 1
Uniform field of a physical quantity 1
Uniform velocity field 35
Vector field of a physical quantity 1
Vortical filament 345
Accompanying flow 144
Averaged turbulent flow 633
Axisymmetric swirled flow 587, 588
Axisymmetric flow past bodies of revolution 368
Axisymmetric flow 325
Circulational flow around a cylinder 190
Circulatory flow past a plate 204
Couette flow 614, 617
Finite-width jet flow past a plate 232
Hypersonic flow past bodies 277
Infinite jet flow past a plate 232

- Jet flow past a plate in a channel of finite width 233
 Jet flow 226
 Laminated flow 652
 Longitudinal flow past bodies of revolution 330
 Non-circulation flow past a cylinder 188
 Flow past a sphere 319
 Flow past a thin profile 218
 Poiseuille flow 612
 Quasi-steady turbulent flow 634
 Shock-free oncoming flow 223
 Flow smoothly past the edge 222
 Subcritical flow past a profile 293
 Supersonic flow past a cone 388
 Supersonic flow past a wedge 259
 Taylor flow 617
 Transverse flow about the bodies of revolution 336
 Turbulent averaged steady flow 634
 Turbulent flow 613
 Uniform rectilinear flow 306, 318
 Pressure fluctuation 633
 Velocity fluctuation 633
 Fluid xvi
 Anomalous fluid xvi
 Bingham-Shedov fluid 404
 Dilatant fluid 407
 Hereditary fluid 409
 Ideal fluid 92, 400
 Incompressible fluid 57
 Inhomogeneous fluid 410
 Isotropic fluid 404
 Newtonian fluid xvi, 400, 405, 777
 Nonnewtonian fluid xvi
 Pseudoplastic fluid 407
 Rheological fluid 410
 Rheopectic fluid 410
 Thixotropic fluid 410
 Viscoelastic fluid 404, 407
 Viscous fluid xvi, 400
 Fluidity 407
Flux of a vector 31
 Turbulent heat flux 639
 Turbulent flux of substance 639
 Archimedes force 84
 Body force 58
 Hydrostatic lifting force 84
 Lifting force 213, 351
 Ponderomotive force 444, 580
 Suction force 215
 Surface force 58
 Volumetric force 58
 Form parameter 619, 708
 Power-law resistance formula 693
 Ackeret's formula 247
 Blasius formula 529, 692
 Buckingham's formula 442
 Clauser formula 759
 Crocco formula 809, 865
 Darcy formula 480, 689
 Kelvin formula 54
 Laitone formula 293
 Logarithmic formula of resistance 684, 692
 Lüdwig-Tillman formula 700, 771
 Nikuradze formula 691
 Oseen formula 477
 Petrov's formula 482, 501
 Prandtl-Schlichting formula 702
 Schlichting formula 705
 Speidel formula 727
 Squire-Young formula 726
 Stokes formula 32, 476
 Sutherland's formula 403, 779
 Van Driest formula 736, 737
 Von Kármán formula of wave resistance 376
 Von Kármán formula 716
 Wannier's formula 498
 Wood's formula 112
 Biot-Savart formula 312
 Isentropic formulas 104, 115
 Frequency of fluctuations 621
 Turbulent friction 653
 Dimensionally homogeneous function 427
 Kirchhoff function 227
 Pressure function 87
 Reduced stream function 544
 Stream function in curvilinear coordinates 316
 Stream function 181
 Gap in the cascade of profiles 224
 Gas xvii
 Chaplygin's hypothetical gas 291
 Viscous gas 777
 Perfect gas 777
 Turbulence generation 642, 644
 Gradient of scalar function 21
 Gravity head 97
 Hydraulic head 97
 Head of the profile 193
 Pressure head 97
 Velocity head 97
 Turbulent heat conduction 653
 Heredity in a turbulent flow 769
 Hydraulics 88, 97, 695
 Magnetic hydrodynamics 444
 Boussinesq hypothesis 653-655, 731, 733, 768, 775
 Clauser hypothesis 731, 754, 755, 761, 761
 Fick hypothesis 657
 Fourier hypothesis 657
 Hypothesis of plane sections 347
 Zhukovskiy-Chaplygin hypothesis 196
 Fluid ideality 400
 Impermeability 414
 Dummy index 2
 Free index 2

- Flow instability** 612
Bernoulli integral 95
Crocco integral 809, 865
Lagrange-Cauchy integral 176
Turbulence intensity 623-625, 629, 645
Free interaction 854
Strong interaction 856
Weak interaction 856
Intermittency 615, 627, 628
Invariance of vortex lines 93
Invariants of a tensor 14
Riemann invariants 155
Ionization 842
Isentropic 106
Isopycnal 56
Isotropy 404
Isotropy of normal stresses 79
- Jet** 38
Axisymmetric non-swirled jet 587, 588
Near-wall jet 539
Submerged jet 513, 534
Turbulent axisymmetric swirled jet 675
Prandtl-Kolmogorov jointing 767
- Law of relaxation of stresses** 408
Archimedes law 84
Clapeyron law 777
Darcy law 480, 689
Fick law 469, 657
First law of thermodynamics 71
Fourier law 468, 657
Mass conservation law 56
Maxwell's law 408
Newton's generalized law 404, 777
Law of energy 71
Law of total enthalpy 135
One-seventh power law 693
Pascal law 79, 89
Poiseuille law 434
Rheological law 401, 409
Voigt law 408
Wake law 754, 755, 758
Wall law 754
- Boundary layer** 506, 512
Concentration boundary layer 512, 515
Concentration boundary layer
in incompressible fluid 603
Diffusion boundary layer in incompressible
fluid 603
Diffusion boundary layer 512, 515
Equilibrium turbulent boundary layer 756
Free boundary layer 513, 531
Laminar boundary layer 512
**Magnetohydrodynamic boundary
layer** 575, 580
Near-wall boundary layer 513, 516
Plane non-stationary boundary layer 597
Shock layer 855
Spatial near-wall boundary layer 583
- Temperature boundary layer**
in incompressible fluid 603
Temperature boundary layer 512, 515
Turbulent boundary layer 512
Velocity boundary layer 512, 514, 516
Vortex layer 207, 345
Dynamic length 682
Mixing length 653, 718
Length of wing profile 194
Prandtl mixing length 659
Relaxation length 773, 842
Taylor mixing length 679
Isopotential line 184
Mach line 243
Line of disturbance 243
Vector line 36
Vortex line 46
Linearization 429
Streamline 36, 181
Gas lubrication 784
- Conformal mapping** 183
Added mass 362, 327
Mass diffusion 850
Longitudinal added mass 366
Transverse added mass 367
Variable mass 57
Matrix of a tensor 6
Matrix of dimensions 426
Maxwell "body" 409
Measure of vector field nonuniformity 26
Mechanics of variable mass 57
Compressible medium 109
Continuous deformable medium xvi
Heterogeneous medium 410, 843
Homogeneous medium 843
Ideal medium 400
Isotropic medium 404
Liquid medium xvii
Multicomponent media 410
Multiphase media 410, 843
Solid medium xvii
Viscoelastic medium 407
Viscous medium 400, 401
Kirchoff's method 233
Kochin-Loitsyanskiy's method 552, 554
Newtonian method 397
Method of a shock layer 398
Method of Chaplygin 289
Method of characteristics 295
Method of contacting cones 397
Method of contacting wedges 397
Method of dimensionalities 425
Method of generalized similarity 552
Method of integral relations 718
Method of large particles 399
Method of the first order moments 731, 761
Method of phase characteristics 617
Method of plane sections 398
Pohlhausen method 557-559

- Truckenbrodt method** 712
MHD boundary layer 575, 580
Molar mixing 652
Turbulent mixing 653
Gas-liquid mixture 111
Maxwell's model 408, 409
Second order model 766
Voigt model 408, 409
Correlation moment 635
 Moment of a single correlation 645
 Moment of a two-point correlation 646
 Resulting moment of pressure forces 84, 359, 361
Second-order moment 641
Added momentum 360
Adiabatic motion 101
Barotropic motion 81
 Fully developed motion 430
Irrotational motion 46
Isentropic motion 105
Laminar motion 429
Reverse motion 520
Rotational motion 46
Slug motion 429
 Multiplication of a tensor by a vector 8
Scalar multiplication of a tensor 8
Scalar multiplication of tensors 18
Tensor multiplication of tensor 18
Vector multiplication of tensors 18
- Laval nozzle** 124
 Second Laval nozzle 150
Characteristic number 16
Critical Mach number 153, 294
Critical Reynolds number 613
Diffusion Nusselt number 608
Diffusion Peclet number 470, 512
Diffusion Prandtl number 470
Euler number 419
Filtration Reynolds number 481
Froude number 419, 469
Grashof number 480
Hartmann number 448
Local Reynolds number 733
Mach number 113
Molecular Prandtl number 741
Nusselt number 607
Peclet number 469
Prandtl number 469
 Reynolds number for boundary layer 618
Reynolds number 419, 613
Schmidt number 470
Stanton number 742, 749
Struhal number 419, 421
Turbulent Prandtl number 660
Turbulent Schmidt number 660
Similarity numbers 419
- Poiseuille parabola** 434
D'Alembert paradox 321
- Hydrostatic **paradox** 83
Chaplygin parameter 126
Compressibility parameter 835
Plasticity parameter 443
Stagnation parameter 98
Taylor parameter 625
Buri parameters 708
 Pascal-second 403
 Period of averaging 634
 Phase of substance 843
 Plane cascade of profiles 224
 Plane of flow 185
 Plane of the hodograph of velocity 185
Physical plane 185
Plasma xviii
Low-temperature plasma 398
Plasticity 407
 Point of laminar boundary layer separation 622
 Point of laminar-to-turbulent flow transition 620, 621
Identical points 416
Poise 401

Riemann problem on propagation of finite disturbances 155, 295
Self-similar problem 165
Sommerfeld's problem 487
Stokes problem 471
Von Kármán problem 505
Dyad product 7
Scalar product of tensors 18
Tensor product of tensors 18
Vector product of tensors 18
Badly-streamlined wing profile 197

- Laminarized wing profile** 623
Supporting wing profile 632
Well-streamlined wing profile 197
Wing profile 194
Zhukovskiy-Chaplygin wing profile 207
- Physically objective quantity** 3
- Hydraulic radius** 439
Rate of dissipation 642
Rate of relative volumetric expansion 43
Rate of strain 41
Pressure recovery 126
Multiply-connected region 175
Simply connected region 173
Relaminarization 629
Integral relation of moment 700
Von Kármán integral relation 553, 555
Relaxation 408
Stress relaxation 408
Turbulent relaxation 773
Resistance of the segment of a tube 129, 434
Wave resistance 247
Retardation 408
Rheology xvi, 401
Vortex ring 175
Rotation of vector field 29
Flettner rotor 193
Rotor of velocity vector 40
Roughness 614, 618, 626, 695
Absolute roughness 695
Developed roughness 696, 704, 708
General roughness 706
Grain roughness 695
Relative equivalent roughness 699
Relative roughness 626, 695
Zhukovskiy's rudder 207
Prandtl-Glauert rule 242, 252
- Scale** 417
Turbulence scale 621, 625, 644, 647
Universal scale 685
Two-layer scheme of boundary layer calculation 732
Two-layer scheme 682
Boundary layer critical section 690
Critical section 113
Rarefaction sector 272
Self-oscillations 421
Self-similarity 156, 504
Laminar separation 622
Turbulent separation 631
Viscous separation 520
Vortex sheet 345
Shock 106
Attached oblique shock 270
Conical shock wave 388
Detached oblique shock 270
Normal shock wave 133
Oblique shock wave 152, 260
- Oblique shock wave** 260
Strong oblique shock 266
Weak oblique shock 266
Similarity 415-418
Affine similarity 417, 418
Dynamic similarity 250, 252
Generalized affine similarity 560
Generalized similarity 545
Kinematical similarity 251, 252
Similarity of hypersonic flows 278, 279
Sink 186
Skin friction 554
Purely turbulent skin friction 679
Self-similar solution 165
Sound 109, 145
Source 187, 306, 318
Hele-Shaw spectra 480
Flow spectrum 36
Turbulence spectrum 647
Speed of sound 106
Standard speed of sound 110
Flow stability 612
Statics of a flowing medium 79

 Tensor total stress 638
 Transpose **tensor** 6
 Theorem about the change in the kinetic energy in integral form 71
Bernoulli theorem in relative coordinate system 98
 First **theorem** of Helmholtz 41
Gauss-Ostrogradskiy theorem 31
Gonor's theorem 202
Helmholtz theorem 94
Kelvin theorem of irrotational motion 178
Kelvin kinematic theorem 53
Lagrange theorem 172
 Newton's shock **theorem** 246
 Theorem of a thin profile 217
 Theorem of Bernoulli 95
 Theorem of dimensionalities 425
 Theorem of Euler about moments in a continuous medium 78
 Theorem of Kelvin on barotropic motion 170
 Theorem of moment of momentum 69
 Theorem of momentum 66
 Theorem on the change of kinetic energy in differential form 72
 Theorem on the change of the medium momentum in integral form 78
 Theorem on the reciprocity of tangential stresses 64, 69, 71
Riemann's theorem 194
 Second **theorem** of Helmholtz 47
Stockes theorem for multiply-connected region 175
Stokes theorem 32, 49
Zhukovskiy's theorem for a cascade of profiles 226
Zhukovskiy's theorem 193, 212
II-theorem 428
Elementary theory of shock tube 166
Hydrodynamic theory of lubrication 492
 Theory of the wing of finite span 344
 Theory of vorticity transport 679
Prandtl theory of a mixing length 659, 731, 754, 761
 Thermodiffusion 850
Plate thermometer 801
 Boundary layer **thickness** 513, 514
 Displacement **thickness** 530, 715, 722
 Momentum **thickness** 530
 Nominal boundary layer **thickness** 530
 Thickness of profile 194
 Relative **thickness** of profile 194
Time of turbulent relaxation 773
 Relaxation **time** 408, 842
 Retardation **time** 408
 Trajectory 37
 Transfer of physical quantity through a surface 75
 Turbulent **transfer** 652
 Vorticity **transfer** 679
Dorodnitsyn's transform 825
Dorodnitsyn-Stewartson transform 830
Mangler transform 816
Conformal transformation 183
Zhukovskiy's transformation 199
 Converging **tube** 614
Prandtl tube 99
Pressure tube 99
Shock tube 166
Stream tube 38, 181
Vortex tube 47
Coherent turbulence 644, 651, 760
Free turbulence 663
Large-scale turbulence 647
Near-wall turbulence 663
Small-scale turbulence 647
 Turbulizer 632
 Jet **twisting** 591, 592
 Unit **tensor** 9
 Principal **value** of symmetric tensor 17
Euler variable 35
Lagrange variable 34
Crocco variables 524
Dorodnitsyn's variables 798, 799
Prandtl-Mises variables 523
 Vector 1
 Vector accompanying tensor 10
Gap-vector of a cascade of profiles 223
 Vector of added momentum 360
 Vector of moment of momentum 360
 Vector of transfer 75
Resultant vector of pressure forces 83, 84, 359
Actual velocity 633
Adiabatic velocity of sound 109
 Velocity circulation 49
 Conjugate velocity 185
 Critical velocity 113
 Dynamic velocity 682, 758, 761
 Flow deviation **velocity** 224
 Fluctuating value of **velocity** 633
 Induced **velocity** 346, 347
 Isothermal **velocity** of sound 109
 Local **velocity** at infinity 347
 Velocity of averaging 633
 Velocity of diffusion 845
 Outer **velocity** 518
 Universal **velocity** 685

- Viscosity 401
Dynamic viscosity 401, 779
First viscosity 778
Kinematic viscosity 401
Molar viscosity 653
Second viscosity 778
Structural viscosity 407
Turbulent viscosity 653, 731, 733
Volumetric viscosity 778
Vortex 46
Bound vortex 212, 344
Free vortex 345
Hollow vortex 48
Isolated vortex 187
Vortex source (sink) 188
Rayleigh-Bernard vortices 617
Wake 513, 531
Near wake 520, 531
Turbulent wake 676
Bow wave 149, 153, 841
Centered wave 162
Compression wave 158
Detached shock wave 148
Detached wave 266
Mach wave 243
Wave of rarefaction 158
Plane wave 132
Simple wave 108, 157
Sound wave 109, 145, 146
Spherical wave 146
Oswatich needle 271
Wetting 414
Width of turbulent mixing region 671
Sound wind 146
Aerodynamically straight wing 352
Elliptical wing 353
Geometrically straight wing 352
Liquid wing 212
Wing of finite span 345
Elementary work done by internal pressure forces 101
